## Summary

Short Summary - Swiss army knife of Information Technology

Long Summary -

12+ years of experience Architecture Planning and Project Management

I am Chief Technology Officer at IndieFolio with 12+ years of experience. My last job was with CouponDunia, where I have managed teams, servers, development, etc Always loved developing and new challenges in technology.

Colleagues know me as a highly creative developer who can always be trusted to come up with a new approach. But I know that the client's business comes first, and I never try to impose my ideas on others. Instead, I spend a lot of time understanding the business and the audience before suggesting ideas. I can (and often do) work well alone, but I'm at my best collaborating with others.

## Experience

	<b>Chief Technology Officer (CTO)</b> IndieFolio	Jul 2015 - Present
